

Diamond Fold Card.

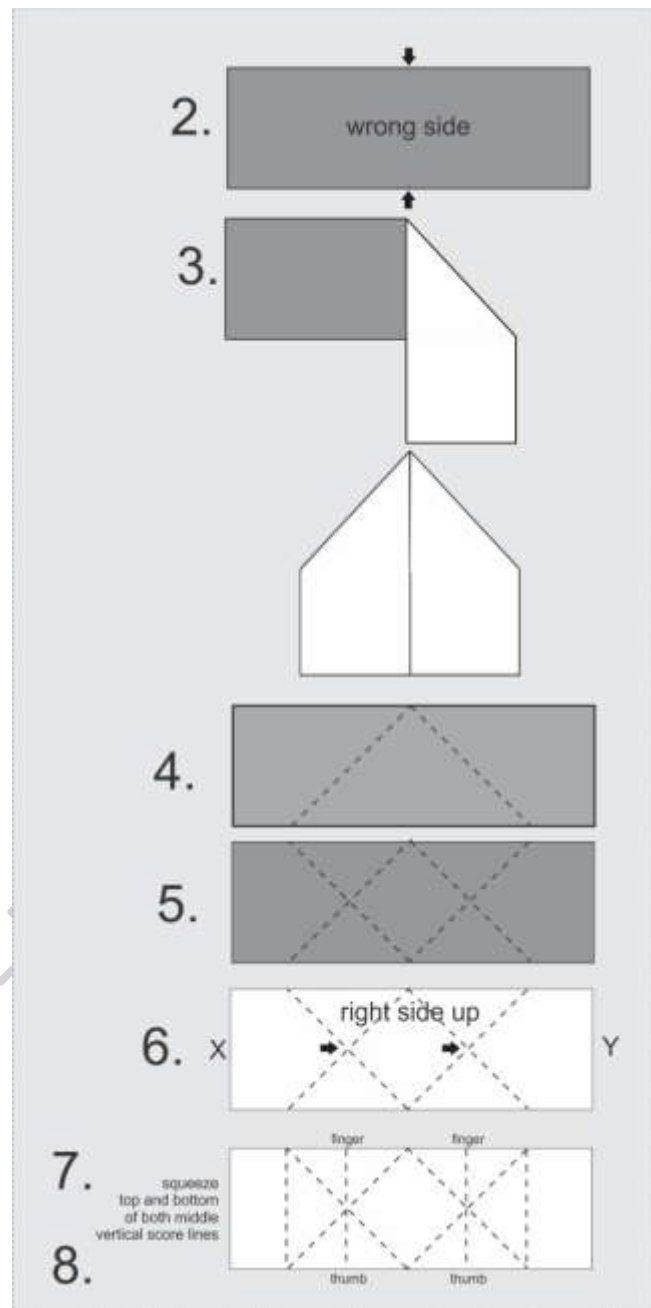

Instruction sheet created by Alannah May.

This fancy-fold card design does not require a scoreboard.

Instructions

(Diagram shows grey wrong side, white right side)

1. Trim a piece of base card @ 12" x 4".
2. Place 12" x 4" card, **wrong side up**, then using a pencil gently mark the middle @ 6" top and bottom (see arrows top image)
3. Fold right hand side diagonally matching up both marks. Repeat for left-hand side.
4. Open and rotate 180 degrees and repeat same diagonal folds.
5. Open to see two criss-cross score lines.
6. Flip card so the right side is now facing upwards and fold 'X' end to meet centre of first criss-cross, then open and fold to meet second criss-cross. Open and repeat for "Y" end of card. Fold to middle of 1st, then fold to middle of 2nd cross.
7. Open card and you will now have multiple vertical and diagonal folds.
8. Place middle finger and thumb, top and bottom of each of the middle **vertical** folds and gently squeeze the card into the DIAMOND FOLD shape
9. Square up corners and then crisp the creases with bone scorer.
10. Attach covers (measurements below) and attach layered die cut butterfly to mimic the card shown.

COVERS for Diamond Fold Card:

- **Front diamond cover** 2 3/4" square.
- **Side covers** (blue) 3 7/8" x 3 3/4", stamp an image, cut into 2 pieces @ 3 7/8" x 1 7/8".
- **Inside corner covers** 2 3/8" square, cut into quarters diagonally (mark reverse side with pencil from corner to corner, as a cut guide. Attach quarters. (Cut more if needed.)
- **Embellish front diamond as desired.**
